

MISSION

To transform the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy, and prosperous environment that improves the quality of life.

VISION

Buildings and communities will regenerate and sustain the health and vitality of all life within a generation.

LEED® is the most widely recognized and widely used green building program across the globe, with more than **72,000 projects** participating in over **150 countries and territories** and **1.85 million square feet** certified every day. LEED is a certification program for buildings, homes and communities that guides design, construction, operations and maintenance.
